

Ghost of th' Rails

i'm the ghost of the rails
at life i have failed
but i search for my girl thru this land
i'm the ghost of the rails
hell, i've been everywhere
just remembering when i was a man

i've rambled for all of my life
oh where is she
when the darkness was our only light
where could she be
well, my baby blown outta sight
but don't cry for my death on that night

i'm the ghost of the rails
hell, i've blazed many trails
i've got burns, i've got scars on my face
i'm the ghost of the rails
and i've hopped out with dougie fresh,
pyro, and lefty, and faith

i've rambled for all of my life
oh where is she
when the darkness was our only light
where could she be
well, my baby blown outta sight
but don't cry for my death on that night

lonely nights
drunken nights
fucked up nights

i've rambled for all of my life
oh where is she
when the darkness was our only light
where could she be
well, my baby blown outta sight
but don't cry for my death on that night
