

Shattered

By: Mike Dehlin

they say something shattered in my brain
oh no, it's the venom in my veins

i walk on water, turn that water into wine
just come with me and you will live forever

they say something shattered in my brain
oh no, it's the venom in my veins

god gave us liquor so i drank up all his words
i drank so much he rotted from my conscious
i drank so much that jesus started spewing from my mouth
i curse the day i met st. peter's gate

they say something shattered in my brain
oh no, it's the venom in my veins

i walk on water, turn that water into wine
just come with me and you will live forever
I wonder why i watch you with your unconvincing life
i curse the day i met st. peters gate
