

# Wherever I Go

My eyes are blood red but i ask for one more  
they tell me to leave and they point to the door  
i look straight ahead but i know i'll end up on the floor

the rain's freezing cold as i drive outta town  
i pray things'll be different this time around  
i look to the sky but i know i'll end up on the ground

listen up baby, i'll tell you again  
wherever i go i am followed by sin  
sorry now baby, well i've got to go  
it seems like wherever i am, i am my own foe

they say you can run but not hide from yourself  
but my foots on the gas, where i'm goin' i can't tell  
my eyes on the road and my body is fevered like hell

you can scream all you want it don't matter how loud  
beat me down to the ground i ain't never been proud  
i'll take what you got and i'll disappear into the crowd

listen up baby, i'll tell you again  
wherever i go i am followed by sin  
sorry now baby, well i've got to go  
it seems like wherever i am, i am my own foe

it's the end of the line and there's no place that's left  
i look up to heaven with a strange request  
i wish i was dead, and my god, he did not protest

listen up baby, i'll tell you again  
wherever i go i am followed by sin  
sorry now baby, well i've got to go  
it seems like wherever i am, i am my own  
enemy is stronger than deceiving friends  
i know who i am hell yeah i can't pretend  
sorry now baby, i've hit a new low  
it seems like wherever i am, i am my own foe
